

Our client, IAWS Group plc, is an international lifestyle food company with operations in North America and Europe and is experiencing rapid expansion and investment.

The Group has outstanding new opportunities in Finance through which you will fast-track your career in a dynamic environment. Below are unique opportunities based in West Dublin and overseas.

### **Strategic Economist**

Ideally, you will have an Economics qualification and be able to provide quantitative analysis and strategic support to the business planning and commercial aspects of the organisation. Reporting to the Group Controller, you should be a smart professional with a strong character who can get into the detail as well as being able to think critically through strategic issues in a role with high Board visibility. Grounding economics and markets into financial performance will be a key aspect of the role.

### **Project & Commercial Accountants**

The project role will be involved in process improvement and consolidation projects, due diligence activity on new acquisitions and other adhoc assignments in support of the head office finance function. The commercial roles are highly business focused and include the evaluation of new business opportunities, commercial reporting, customer pricing, customer strategies and margins. These roles involve operating in a manufacturing environment, driving commercial decision making. Circa 3 years' PQE required.

### **Divisional Financial Controller**

Reporting to the Divisional Finance Director this role is responsible for all aspects of reporting, budgeting and planning for a large division of the Group. The role will also provide support for the corporate development activities and will work closely with the Finance Director on various projects. Big 4 Qualified Accountant with at least 3 years' PQE in industry. Strong practical knowledge of IFRS is essential.

### **Senior Finance Manager - UK Based (London)**

Reporting to the Financial Director in the UK, this is a senior role centred on the day to day running of a large finance function in a fast moving business. The role involves driving, reporting and analytics as well as the supervision of a large team. This role provides excellent potential for career progression for a dynamic results driven individual.

### **Financial Accountants/Internal Audit**

Exciting opportunities exist for Newly Qualified practice-trained Accountants. There are a mixture of group accountant and internal audit roles as well as operational roles available for high quality, dynamic individuals with an international outlook.

### **Project Assistant**

This role involves supporting corporate development and company secretarial initiatives/projects within the business. This role may suit either a newly qualified Accountant or strong business graduate who will be a smart and innovative professional. The role will involve assisting on projects in a fast moving and dynamic environment.

### **Senior Treasury Analyst**

Reporting to the Group Treasurer, this role will be responsible for all aspects of treasury reporting, budgeting and planning for the Group. There will also be a significant amount of strategic and operational project work. This role would ideally suit a strong business graduate with relevant treasury experience.
